Notes:

1. SafePace Cloud: Allows you to remotely access and manage your signs from anywhere, anytime.
2. Stealth Mode: Baseline traffic data can be collected for comparison and analysis while speed display appears blank to motorists.
3. Dual-Color Display: LED digit color can be programmed to change from yellow to red based on driver speed.
4. Slow Down Messaging: Sign flashes "Slow Down" message at drivers who exceed designated speed.
5. Custom Messaging: Display a scrolling message or moving arrows.
6. Universal Mounting Bracket (optional on EV 11 and EV 12) allows the sign to be easily mounted to virtually any type of pole or surface in a quick, easy and secure manner.
